

## **CALL FOR APPLICATION: Euraxess Online Seminar for Scientists in Exile for Professional Integration in Europe**

**A 4-day workshop dedicated to displaced Ph.D. holders from all fields residing in  
EU countries**

**Online  
May 19-22, 2025**

In response to the challenges faced by researchers forced into exile due to global geopolitical crises, political, ethnic, or religious persecution, the "*Online Seminar for Scientists in Exile for Professional Integration in Europe*" was developed. With the increasing number of postdoctoral researchers and the prevalence of fixed-term contracts in a hyper-competitive environment, awareness of the opportunities in the non-academic job market and having alternative options can significantly enhance researchers' adaptability in today's dynamic professional landscape.

This is why *Association Bernard Gregory - ABG*, with the support of *the European Union's Horizon Europe research and innovation program under the ERA TALENT Project*, is organizing a seminar specifically for:

- Ph.D. holders / candidates in exile from all fields and nationalities, who are currently residing in EU countries and are hosted by any research institution or university
- Ph.D. holders who are unemployed or nearing the end of their research contract

This seminar, held in English, offers **interactive and collective workshops, hands-on application of tools, and peer exchanges over the 4 days**. It also includes **networking opportunities with company representatives**, providing a comprehensive approach to career development. That is why organizers seek motivated and committed participants.
